

The Story of Jesus

④ Teaching, Spreading, and Healing

Peter Several months have passed since I quit my job as a fisherman. Amazing things happened to me. Scary things also happened to me.

Best of all, I could be with Jesus.

That was the most amazing thing.

That is the best thing that has ever happened to me.

Let me tell you about Jesus' "normal" life.

First of all, Jesus teaches a lot.

He teaches the Bible.

He helps us understand the Bible very well.

Jesus The Bible is not to give us fear, pressure or stress. The bible is to give us freedom. Do you get it?

Peter After Jesus taught, people kept saying, "I love God!" They could not help saying it. It was so touching, so incredible. Second of all, Jesus spreads the good news. Especially, that the kingdom of God is near. He told how good it was. People couldn't wait to come to the kingdom of heaven. They learned they should obey God and live in his ways. They were full of hope for God's Kingdom in their heart. Last of all, Jesus heals people.

Peter

Jesus heals people's sick body and sick heart.

Jesus teaches, shares, and heals so many people just like I told you. Jesus told me why he did these things and I was really surprised. I thought Jesus did these things because he had supernatural power.

But not at all! The reason why Jesus spent his time teaching, spreading the good news, and healing was that he loved God and did what God told him to do.

He is sad and his heart-aches whenever he sees people who are hurting. He was just like a shepherd.

People were hungry and sick. People were like sheep (with no shepherd) so Jesus stayed with them.

(He) lived just like the poor people. His normal life was lived from his faith in God. But, this is not the end of the story. Here is a pop quiz. Q. What work did Jesus do in this story? A. big work B. small work C. home-work D. teaching, spreading, and healing.
